## TECHNICAL BROCHURE

**SNOWY OWL**

**AGRICHEM PRODUCTS**

Specialised formulation based on plants extract, which boost the plant metabolism.

**Product:** AGRICHEM

**Producer:** AGRICHEM

**Exclusive Seller for Greece:** FARMA-CHEM SA

### ✓ **RECOMMENDED USES AND DOSAGES:**

**Tomato, Pepper, Eggplant, Cucumber, Melon, Watermelon, Strawberry, Leafy vegetables:** Applications are recommended in conditions of intense metabolic activity and if necessary, **Apple, Pear, Pomegranate, Nectarine, Cherry, Apricot, Plum, Orange, Lemon, Vine:** Applications are recommended in conditions of intense metabolic activity and if necessary, **Olive:** An application is recommended when there are conditions of environmental stress and repetition in 7-14 days, if necessary, **Pistachio, Walnut, Almond, Hazelnut, Fig:** Applications are recommended in conditions of intense metabolic activity and if necessary, **Cotton:** Applications are recommended in conditions of intense metabolic activity and if necessary, **Potato:** Applications are recommended in conditions of intense metabolic activity and if necessary, **Greenhouse crops:** See the corresponding field crops for the time of application.

Dose for all crops: 200-400 cc/100 liters of water with foliar spray.

### ✓ **COMMENTS:**

It is recommended to combine it with an organosilicon wetting agent. The recommended dosages are purely indicative and vary according to temperature, sunshine, water sufficiency, etc. Avoid use in extreme weather conditions. Shake well before use. The applications are recommended to be done early in the morning or in the afternoon. It is recommended to apply it only according to the instructions for use on the label. Any other use is the buyer's responsibility.

✓ **ADVANTAGES:**

It is absorbed directly by the foliage and:

- Enhances nut production in cotton.
- Strengthens photosynthetic capacity.
- Maximizes plant metabolism and enzyme activity.
- Acts pseudohormonally and enhances cell division and elongation.

✓ **COMBINABILITY:**

Contact your local agronomists.

✓ **TEMPORAL STABILITY OF PREPARATION - STORAGE CONDITIONS:**

In its original packaging, closed, in a cool and well-ventilated environment.
